SKILLS

HTML5	82%
CSS3	79%
JavaScript	78%
API Integration	78%
Responsive Design	75%
React	63%
Firebase	68%

PROFESSIONAL SUMMARY

I am a passionate and dedicated Front-End Developer currently pursuing the Modern Web Application Development program at Saylani Mass IT Training (SMIT). Skilled in HTML, CSS, JavaScript, and React.js fundamentals. Experienced in building interactive websites using JSX, Components, Props, State Management (useState), Side Effects (useEffect), React Router, Form Handling, and API Integration using Fetch API, Axios, Firebase Authentication for secure user registration and login systems. Currently continuing my learning journey in React.js and Firebase Firestore while building SMIT assignments to strengthen my problem-solving and development skills. After completing React.js, I plan to continue my journey with Next.js to build faster and more scalable web applications. My goal is to become a proficient Full-Stack MERN Developer.

EDUCATION

- MERN Stack Development** IN PROGRESS
SMIT — Paposh Branch
Sep 2025 – Dec 2026
- Matriculation**
Karachi, Pakistan
